## Summary

Experienced Software Engineer and Mobile Developer with experience in Flutter/Dart, Android/Java, and C# app development. Focused on clean code, clean architecture, and performance. Having graduated with a commendable GPA of 16 out of 20. Proficient in Dart programming language and skilled in developing cross-platform mobile applications using the Flutter framework. While my professional journey has taken diverse paths, my commitment to excellence and continuous learning has remained unwavering. Eager to leverage my educational background and passion for Flutter development in a challenging role, contributing to innovative projects and further honing my skills.
